PRIYA SHARMA
AI/ML Engineer & Systems Researcher
Email: priya.sharma@example.com | Phone: +1 (555) 234-5678 | GitHub: github.com/priyasharma-ai

PROFESSIONAL SUMMARY
Machine Learning Engineer with 3+ years experience building production LLM pipelines, RAG systems, and deep learning archite

TECHNICAL SKILLS
Languages: Python, C++, SQL, TypeScript
AI/ML Frameworks: PyTorch, Hugging Face, LangChain, CrewAI, Google ADK, FAISS, Pinecone
Backend & DevOps: FastAPI, Docker, PostgreSQL, Redis, Kubernetes, Git

PROFESSIONAL EXPERIENCE
AI Research Engineer - NeuroSynthetics (2022 - Present)
- Architected multi-agent conversational RAG platform serving 150K active queries monthly.
- Reduced vector retrieval and embedding latency by 45% using FAISS clustering and semantic caching.
- Evaluated and fine-tuned open-source LLMs (Llama 3, Mistral) achieving 92.4% benchmark accuracy.
- Engineered automated factual verification guardrails catching 99.1% of hallucinated outputs.

Machine Learning Developer - DeepMetric Labs (2020 - 2022)
- Built automated document parser pipeline extracting tabular financial entities with 96% precision.
- Deployed real-time inference microservices using FastAPI and Docker on AWS ECS.

EDUCATION & DEGREES
Bachelor of Technology in Computer Science & Engineering - Tech University (2016 - 2020)
CGPA: 8.9 / 10.0
